

APPENDIX A

CRANIUM

OSTEOTOMIES (eg in cranosynstisis)

FRONTAL ADVANCEMENT

1. unilateral, without orbit
2. unilateral, with partial orbit
3. unilateral, with total orbit
4. bilateral, without orbit
5. bilateral, with partial orbit
6. bilateral, with total orbit

RECONSTRUCTION

1. full thickness skull with bone graft
2. full thickness skull with other material
3. onlay to skull with bone graft
4. onlay to skull with other material

TUMOUR RESECTION

ACUTE TRAUMA

ORBIT

OSTEOTOMIES

1. unilateral, total – intracranial
2. unilateral, partial – subcranial
3. unilateral, partial – intracranial
4. bilateral, total – intracranial
5. bilateral, partial – subcranial
6. bilateral, partial – intracranial

RECONSTRUCTION

1. inlay with bone graft
2. inlay with other material
3. onlay with bone graft
4. onlay with other material

TUMOUR RESECTION

ACUTE TRAUMA

MAXILLA

OSTEOTOMIES

1. Le Fort III – intracranial with forehead advancement
2. Le Fort III – intracranial without forehead advancement
3. Le Fort III – subcranial
4. Le Fort II
5. Le Fort I
6. Segmental

RECONSTRUCTION

1. inlay with bone graft
2. inlay with other material
3. onlay with bone graft
4. onlay with other material

TUMOUR RESECTION

ACUTE TRAUMA

MANDIBLE

OSTEOTOMIES

1. unilateral
2. bilateral
3. segmental

RECONSTRUCTION

1. inlay with bone graft
2. inlay with other material
3. onlay with bone graft
4. onlay with other material

TUMOUR RESECTION

ACUTE TRAUMA
